Dear Editor,

We read the article “Most cited 100 articles from Turkey on abdominal wall hernias: a bibliometric study” by Kulacoğlu et al (1). It is a very interesting, valuable and encouraging study for abdominal wall hernias especially for inguinal hernias. However, we think a highly cited article from Turkey written by İşik et al. “Metalloproteinases and Their Inhibitors in Patients with Inguinal Hernia” (Figure 1) published at World Journal of Surgery in 2017 should be ranked (2). We attached the images of citations of Web of Science/Google Scholar (Figure 2-3) for their research in our country (3,4).

Cite this article as: İşık A, Fırat D. Letter to the editor concerning “Most cited 100 articles from Turkey on abdominal wall hernias: a bibliometric study.” Turk J Surg 2021; 37 (2): 193-194.
